

PRICE OF DAILY JOURNAL.  
125 CENTS PER WEEK.

SATURDAY, NOVEMBER 24, 1890.

TOWN AND COUNTY.

ABRAHAM.

Go to Lutz & Schmitt for window glass.

Go to Lutz & Schmitt for parlor stoves.

More showers night before last and yesterday afternoon.

Picture moldings and curtain poles at Osburn & Shoemaker's.

J. H. Dennis, Melter and Refiner at the Mint, was in town yesterday.

Wall paper, in the most thanks to rich gold, at Osburn & Shoemaker's.

Mixed paint, the best in the world, at Osburn & Shoemaker's.

St. wing machines 30 per cent. cheaper than elsewhere at Osburn & Shoemaker's.

Senator Stewart and his private secretary Froham left for Washington yesterday morning.

D. A. Reader is making arrangements to ship a carload of Washoe apples to Los Angeles for Christmas.

A large, well furnished room situated within half a block of Virginia street for rent cheap. Enquire at this office.

It is reported that excellent prospects have been developed in both the North and South Alaska mines, Little Valley, Washoe county.

Harry Badworth, one of Haverly's new comedians, is an innovator and a revelation to minstrel patrons, in so far that he is the exact opposite of the original Pompey minstrel.

A ship bound to fortune for any artist is to get his reputation established under Haverly's banner, because he has an opportunity to be presented to the best people in every community.

Haverly always has the newest and freshest novelties in his minstrel entertainments. It has become an accepted fact that there never has been a bad performance given under his name.

In some places in Nevada there is a demand for lead for smelting purposes. In the North Bonanza mine, Flowery District, is lead enough to supply the whole State. That mine contains a vein of solid galena 70 feet in width.

Nevada hay being cured without being exposed to either rain or dew, it is said to be the best obtainable in the United States. It is regularly shipped to the Atlantic States to be used in feeding valuable racing stock. In the altalaha there is so much saccharine matter that hogs eat it greedily and fatten on it as readily as on corn.

A great many fat cattle are still being shipped from this State to California. Nearly all the beef sold in San Francisco is said to be the Nevada article, whether or not it was ever on this side of the mountain. Owing to the many disgusting diseases with which California cattle are afflicted there are few persons who care to eat home beef.

The SUTRO TUNNEL EXTENSION.—The Enterprise says Theodore Sutro, President of the Sutro Tunnel Company, will leave here in a few days for New York, where he will spend the winter. He expects to return to the Comstock early next Spring. He is strongly in favor of extending the tunnel into the country west of the Comstock vein. He says that the work will be commenced as soon as the affairs of the company are satisfactorily arranged. He and Superintendent C. C. Thomas the other day took saddle horses and ascended Mount Davidson to study the lay of the land. Mr. Sutro was astonished at seeing the many and large veins of quartz that crop out in the country west of the Comstock lode.

To PREVENT HAIR FALLING OUT.—Whenever it commences to comb out, put alcohol on the scalp and gently rub with the tips of the fingers. Continue the treatment once or twice in two or three days until it ceases to come out. This stimulates the growth. Four or five applications will usually cure for the time. A little rubbed on occasionally is beneficial.

DAISY TAUBERT FOUND.—The Journal yesterday received the following note from T. F. Taubert, which explains itself:

RENO, Nov. 23, 1893.

Lost daughter, Daisy, of Mr. T. F. Taubert has been heard from, and is in Reno, but being over age declares that her parents have no more to say about her affairs.

THEO. F. TAUBERT.

NOTICE.—The customers of the Reno Water Company, are hereby notified that the water will be shut off from the town Sunday morning Nov. 25 at 7 A. M. and remain off for at least 10 hours, for the purpose of making repairs.

VEHICLE TRAINS

Bertha Being Engaged Already—

Name of the Stopping Places.

The San Francisco Chronicle says:

Speaking of the new vestibule train of the Central and Union Pacific which will be started from this city on December 8th, George M. Pullman, the head of the Pullman Palace Car Company, who made the arrangements for the new service, says that it is expected to make the trip between San Francisco and Omaha in sixty hours, although it has not been fully determined that this can be done. The construction of the train has, he says, been the subject of much thought. A feature which has not yet been mentioned in the Chronicle will be the large water tanks below each car, the water in which will be under air pressure, which will force it through pipes supplying the lavatory and toilet rooms, and also giving a sufficient head to throw a stream by means of a hose, twice the length of the car and to extinguish any fire. By increasing the speed and decreasing the number of stops, it is expected to save fully one day between New York and San Francisco. This will enable passengers between England and China to make the trip via the American Continent more quickly and comfortably than by any route now running the usual Pullman cars. A person of ordinary means can travel across the continent in this way, enjoying as much luxury as any monarch of Europe riding in a special train, by the payment of a fare less in amount than it would cost to make the same distance on foot.

The Union and Central Pacific are already reserving berths in the vestibule train, to leave on the 8th prox., for passengers applying at their offices. One of San Francisco's "snobs" told the Union Pacific agent to reserve him a berth at any cost. He was bound to have a trip on the first vestibule train going out. The agents say that many people will make the trip overland in the new cars for the mere novelty of the thing and that for the first few trips the applications are expected to exceed the accommodations. The names of the cars are suggestive of the cosmopolitan class which will most use them. They are the Golden Gate, Casa Monica, Rahula, Khiva and Atlatlin. It has been decided to have the train stop only at the following places between San Francisco and Council Bluffs: Sacramento, Truckee, Reno, Winnemucca, Carlin, Wells, Green River, Cheyenne and North Platte.

COLD WATER BEFORE BREAKFAST.—A learned physician recently imparted knowledge to a New York man who mixes drinks. The story is told as follows: A thin, tall man got up early the other morning at the Fifth Avenue Hotel, and, coming down stairs, ordered two glasses of water at the liquid refreshment counter. The trained bartender smiled, but handed out two large glasses full of pure, cold water. The man snatched his tips and said it was a healthy drink before breakfast, and one that he recommended. "Yes, I do; but if I had not drunk cold water before breakfast I might have been in my grave long ago. I am a physician, or rather was one before I retired, and have made a study of liquids. Water drunk freely before meals has a beneficial effect, for it washes away the mucus secreted between the intervals of repose. The membrane thus cleansed is in much better condition to receive food and convert it into soluble compounds. In the morning the accumulation of mucus is especially marked when the gastric walls are covered with a thick, tenacious layer. Now, food entering the stomach at this time will become covered with this tenacious coating which for a time protects it from the action of gastric ferments and retards digestion. Your man with a tubular contracted stomach, with its puckered mucus lining and viscid contents, a normal condition in the morning before breakfast, is not suitable to receive food. A glass of water washes out the stomach, gives tone and prepares the alimentary canal for the morning meal.

W. R. Chamberlain is going to set an elegant free lunch from 8 to 12 o'clock at the Riverside Hotel every evening.

THE NONCROSS NEW DEVELOPMENT—

The Enterprise says the new ore deposit on the 500 hundred level of the Hale & Norcross proved only about five feet in width where cut through by the drift, but a body of quartz was found to continue beyond that point. As quartz is "the mother of ore," this is a good indication. The ore vein found may prove to be of greater width when followed with drifts from the point where it was first cut through. If not, a width of four or five feet is still good to have. Also it may be that when the low grade quartz is cut through ore will be found on the west side of it. As the ore streak found is backed by a body of quartz, it is almost a sure thing that it will be found to widen with depth.

IMPORTANT NOTICE.—I take the liberty to announce to the public and to my customers that we have moved to the large and spacious store of the Chamberlain's building, next door to M. Nathan's clothing store. Being very grateful for the liberal and generous patronage in our former establishment, we trust that our reputation for fair dealing will induce our customers to continue their confidence and transfer their kind patronage to our new establishment.

Most Respectfully,  
S. EMMON, Nevada Cash Store.

ENTERTAINMENT AND SUPPER.—The statement made in the Journal yesterday morning that Nevada Lodge, No. 7, Daughters of Rebecca, would give a grand ball on the evening of the 28th was a mistake. They do not intend to give a grand ball at all, but will give an entertainment and supper at their hall on that evening, to which all Old Fellows and their friends are cordially invited. The admission to the entertainment will be free but 50 cents per couple will be charged for the supper.

SPIRITUALISM EXPOSED.—Next Monday evening, Nov. 26th, Beaumont's exposure of Spiritualism will be given at McKissick's Opera House. All the latest and very best so-called "spirit" manifestations will be given under strictest conditions and then fully and clearly explained. There will be materialized spirits, spirit music, mind-reading and twenty other new and startling tests. Admission 50 cents, children 25 cents.

IMPROVISED.—Joe Roberts, son of Clint Roberts, of the N. & C. Junction, who sustained a severe fracture of the leg some weeks ago, is getting along finely. He received the injury from being thrown from runaway horses, and his injury was at one time so severe as to threaten amputation. Since he has been under the care of Dr. Dawson he has improved rapidly and is on the speedy way to recovery.

A NEVADA SUICIDE.—A New York dispatch of the 22d has the following. The keeper of a so-called "furnished-rooms" house, Alice McCarthy by name, committed suicide this afternoon. She bore the name of David McCarthy, with whom she lived. It is not her husband. Her husband's name is Nelson. She was born in Virginia City, Nevada, and has a child in the West. She was 32 years old.

"After Swinburne."

"Mine eyes to my eyelids cling thickly, My tongue feels a mouthful and more, My senses are sluggish and sickly, To live and to breathe is a bore, My head weighs a ton and a quarter, By pains and by pangs ever split, Which manifold washings with water Believe not a bit."

After Swinburne these lines may be, a long way after that matter, but what a description of the man whose bowels are constive, liver disordered, blood out of sorts. Such an individual needs Dr. Pierce's Pleasant Purgative Pellets. They are pleasant to take and powerful to cure.

Dr. Pierce's Favorite Prescription cures all those peculiar weaknesses incident to females.

Syrup of Figs

Is Nature's own true laxative. It is the most easily taken, and the most effective remedy known to cleanse the System when Bilious or Constive; to dislodge Headaches, Cold and Fevers; to Cure Habitual Constipation, Indigestion, Piles, etc. Manufactured only by the California Fig Syrup Company, San Francisco, Cal. Sold by Wm. Pinniger, Reno.

MR. BLAINE.

The San Francisco Call says:

There is naturally a good deal of speculation as to the future of Mr. Blaine. The public do not want to see the Henry Clay of this generation drop out of politics. Mr. Blaine has been the most conspicuous leader in the Republican party for nearly twenty years, and is yet eighteen years younger than the Democratic candidate for the Vice-Presidency at the recent election. There is no reason, therefore, in respect to age that should cause Mr. Blaine's retirement. There should be no impairment of his intellectual vigor for fifteen or twenty years. Meantime his natural place is in the political service. Whether he goes into the Cabinet or back to the Senate should be a matter of personal choice. The objection to the Cabinet under Harrison is that Mr. Blaine is too large a man to be subordinated in public opinion even to the President-elect. The people remember how Mr. Garfield was overshadowed by the magnetic Maine statesman. In all such cases the popular imagination exaggerates facts. If Mr. Blaine should go into Mr. Harrison's Cabinet he would be credited with a greater influence over the President than he would attempt to exercise. Such a position would be embarrassing both to the President and to Mr. Blaine himself. There does not seem to be any obstacle to Mr. Blaine's return to the Senate except the fact that neither of the Senators from Maine wants to give up the place. Neither Senator Hale nor Senator Frye fills a considerable place in the public eye, yet both are well liked in their native State. Senator Frye's term expires on the 4th of next March, but it is understood that his re-election is assured unless he voluntarily withdraws. Under these conditions it is not improbable that Mr. Frye will be given a place in the Cabinet with a view to create a vacancy in the Senate for Mr. Blaine.

Potato socials are all the rage in some parts of Kansas. The plan of conducting them is not altogether clear to the uninitiated, but at these gatherings many a Kansas young man doubtless has made his first mash.

The Perfection

Of the age in the medical line is the liquid fruit remedy, Syrup of Figs, manufactured only by the California Fig Syrup Company, San Francisco, California. It is agreeable to the taste, acceptable to the stomach, harmless in its nature, painless yet prompt and thorough in its action. Sold by Wm. Pinniger, Reno.

DON'T

Let that cold of yours run on. You think it is a light thing. But it may run into catarrh. Or into pneumonia. Or consumption.

Catarrh is disgusting. Pneumonia is dangerous. Consumption is death itself.

The breathing apparatus must be kept clear of all obstructions and offensive matter. Otherwise there is trouble ahead.

All the diseases of these parts, head, nose, throat, bronchial tubes and lungs, can be delightfully and entirely cured by the use of Boecher's German Syrup. If you don't know this already, thousands and thousands of people can tell you. They have been cured by it, and "know how it is, themselves." Bottle only 75 cents. Ask any druggist.

Castor to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with run of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, equalizes the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Feb. 21-aw 6-10
